

OET

Tuition and International School Placement in Thailand

Your trusted pathway to Thailand's leading international schools

With our expert guidance, your child's pathway to a top tier international school in Thailand is carefully managed from start to finish.

From initial assessments and consultations, to the creation of a bespoke tuition package, and even comprehensive application support and school visits, we make sure that every detail is expertly managed on your behalf.

Company Introduction

At Oxford Elite Tutoring, we provide exceptional, personalised tuition delivered by fully qualified UK teachers, supporting students of all ages across top-tier international school curricula in Thailand. Our bespoke programmes are designed to strengthen academic performance, build confidence, and prepare students for success in high-level assessments. In addition to ongoing curriculum support, we offer specialised preparation for entrance tests to leading international schools in Thailand, as well as tailored exam support for families exploring UK school opportunities.

At the heart of OET are James Conduit and Sophie King. James is the former Director of EAL and Year 4 Team Leader at Shrewsbury International School Bangkok Riverside, and Sophie is a former Mathematics lead and Year 5 teacher also at Shrewsbury. Since leaving, they have supported hundreds of students across Thailand, preparing them for UK boarding schools, international school entrance exams, and ongoing academic success.

OET offers access to hand-picked, fully qualified UK teachers who have extensive experience teaching in top-tier international schools. Many previously taught alongside James and Sophie at Shrewsbury Riverside. Their expertise in adapting lessons for international learners ensures rapid progress, high engagement, and targeted support for areas needing development.

Our team works in close partnership with parents, students, and schools to ensure clear communication and consistent progress. Each family begins with a consultation to assess academic needs, learning goals, and school ambitions. From here, we create a personalised OET Learning Plan, match the student with the ideal tutor, and provide detailed feedback after every lesson. Throughout the journey, parents receive ongoing support and guidance to ensure their child is fully prepared for the next step.

Journey to a top tier international school

Phase 1 Consultation

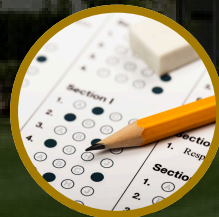

Meet our team via Zoom to discuss your initial goals for your child. We will answer any questions you might have about the top tier international schools in Thailand, and provide you with initial guidance. We will gather information about your child's current education and English levels in preparation for the next step

Phase 2 Assessment

We will then book in an assessment with one of our fully qualified UK teachers or one of our top language experts based on the initial discussions. During this assessment, we will assess your child's general level of English and academic ability across the register of language, from BICS (basic interpersonal communication skills) to CALP (cognitive academic language proficiency), and we will also assess subject-specific knowledge. This analysis will allow us to start your child at the correct stage of our placement process.

Phase 3 Learning

After analysis of the results, we will create a personalised OET Learning Plan for your child, which will show the learning journey from their current level to a final school entrance exam and placement. Our team will meet you again to discuss the plan and confirm the start of OET tuition and placement service.

Join us at any level

We can provide support for your child from the very beginning of their educational journey.

From zero English language, to a successful entrance test at a top tier international school, our 4 levels of tuition will give your child the skills they need to succeed.

Based on your child's assessment, our bespoke OET Learning Plan will recommend starting at the most suitable level, and we then begin your tuition.

Additional services

1. School visits
2. School application support
3. Attend school parent evenings
4. Ongoing tuition and homework support
5. Educational day trips

Entrance test Prep

Level 1 - Foundation English

Our Level 1 programme is designed for children with limited English exposure who need to build confidence and essential communication skills quickly. Lessons focus on high-frequency language, core vocabulary, social English, and speaking and listening practice to ensure rapid early progress.

Through engaging, confidence-building activities, students learn to understand, respond, and participate comfortably in everyday classroom situations. All lessons are delivered by expert EAL teachers carefully selected through lesson observations and additional OET training.

Level 2 - International School Curriculum

Level 2 is designed for children who can communicate socially but are not yet ready for the academic demands of an international school. At this stage, we guide students from everyday English toward the academic language needed to thrive in a mainstream classroom. Lessons introduce subject-specific vocabulary, reading comprehension strategies, more structured speaking, and early academic writing, all aligned with the school's curriculum expectations.

Progress is closely monitored, with regular updates provided to parents. Teaching is delivered by experienced EAL specialists from top-tier international schools who understand precisely what students need to access the curriculum effectively.

Level 3 - International School Curriculum

Level 3 is designed for children who already communicate confidently and understand academic English, but now need to begin mastering curriculum objectives. This level strengthens academic literacy, reasoning, and subject knowledge so students are fully prepared to enter and excel in a top-tier international school. Lessons include reading and writing across core subjects, analysis and inference skills, grammar and vocabulary refinement, and essential study strategies.

Each student works toward personalised learning targets, reviewed with parents every month. All lessons are delivered by our hand-picked, UK-qualified teachers, each with over 10 years of experience and deep expertise in the expectations of international school learners.

Level 4 - Entrance test preparation

Level 4 is designed for children who are close to placement readiness and require focused, high-level preparation for selective school admissions. The aim is to maximise performance in entrance assessments and interviews, ensuring each student presents their strongest academic ability and personal character. Lessons include targeted practice for common admissions tests such as ISEB, CAT4, and school-specific exams, alongside structured interview coaching.

Students also complete reasoning and comprehension drills, as well as full mock exams with detailed feedback to guide final improvements. Teaching is delivered by UK-qualified teachers and specialist entrance tutors with extensive experience in competitive admissions.

Who delivers our service?

A selection of our Fully Qualified Teachers

With dedicated teams in both Thailand and the UK, we deliver a truly bespoke tuition service which is strengthened by our exceptional links to Thailand's top-tier schools.

All of our tutors for curriculum development and test support are fully qualified UK teachers, hand-picked for their outstanding teaching skills and extensive experience in international school environments. Many previously taught together at Shrewsbury Riverside, Bangkok, where they honed their expertise in adapting lessons for international learners and driving accelerated student progress.

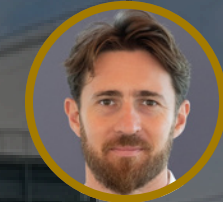

Our Academic Language development teachers are highly experienced and trained EAL teachers with top tier International school teaching experience. In addition, we have selected and trained experienced language teachers to support the Beginning English classes. At every step of the way, we are there to support your child.

Our Students: Thriving in Thailand's Top-Tier International Schools

The students we support come from some of the most prestigious international schools in Thailand. Families trust Oxford Elite Tutoring because we understand the demands, expectations, and academic standards of these world-class institutions. Our current learners study at schools such as Shrewsbury International School, Harrow International School Bangkok, Bangkok Patana School, ISB (International School Bangkok), NIST International School, and other leading institutions known for academic excellence, competitive admissions, and high-achieving student bodies.

Because our tutors have taught within these very schools, we know exactly how to help students succeed. Whether your child needs curriculum support, extension and challenge, exam preparation, or help filling specific learning gaps, we provide expert, targeted tutoring that leads to rapid progress. Our personalised, fully tailored approach ensures every lesson is purposeful, engaging, and aligned with school expectations.

For families preparing to apply to Thailand's leading international schools, we offer specialised entrance preparation. Our tutors expertly prepare students for admissions interviews, English and maths assessments, writing tasks, and academic challenges unique to each school.
