Hybrid Learning in the Classroom

Hybrid Learning in the Classroom

Access world class teachers in a real classroom setting.

OET's hybrid learning model gives schools affordable access to the world's best teachers while keeping students learning together in the classroom. Live online expertise is seamlessly combined with in-person support, collaboration, and peer interaction to deliver outstanding outcomes

What is Hybrid Learning?

Hybrid learning combines the best of both worlds: access to outstanding teachers and the proven benefits of learning together in a classroom. Through OET's hybrid model, schools can connect their students with some of the world's best teachers via live, interactive lessons at a fraction of the cost of traditional private tuition.

Students remain physically in the classroom, working alongside their peers, which preserves the vital social, emotional, and academic benefits of group learning. Discussion, collaboration, and peer interaction are embedded into every lesson, supported by an in-class teaching assistant who ensures students stay engaged and supported.

This approach allows schools to raise academic standards, broaden subject provision, and offer premium teaching expertise without the significant cost and recruitment challenges typically associated with specialist staff.

Model 1 - Hybrid Learning

Model 2 - Enhanced Hybrid Learning

Model 1 - Hybrid Learning

In this model, the teacher delivers a live lesson via Zoom, displayed on the main interactive screen at the front of the classroom. Students follow the lesson together, working with worksheets and notepads at their tables while benefiting from real-time explanation and questioning from the online teacher. An in-class teaching assistant supports learning, facilitates discussion, and helps guide group work, ensuring students remain engaged and supported throughout the lesson.

Prepared worksheets and workbooks for
students to use during the lesson

Model 2 - Enhanced Hybrid Learning

This model builds on the screen-led approach by providing each student with an iPad or learning device, allowing them to see and hear the teacher individually while still learning together in the classroom. In addition to live instruction, students can access shared documents, interactive resources, and online activities that deepen understanding and encourage active participation. Group work and collaboration remain central, with the teacher setting tasks and the in-class assistant supporting students as they work together both offline and online.

Who delivers our service?

A selection of our Fully Qualified Teachers

With dedicated teams in both Thailand and the UK, we deliver a truly bespoke tuition service which is strengthened by our exceptional links to Thailand's top-tier schools.

All of our tutors for curriculum development and test support are fully qualified UK teachers, hand-picked for their outstanding teaching skills and extensive experience in international school environments. Many previously taught together at Shrewsbury Riverside, Bangkok, where they honed their expertise in adapting lessons for international learners and driving accelerated student progress.

Our Academic Language development teachers are highly experienced and trained EAL teachers with top tier International school teaching experience. In addition, we have selected and trained experienced language teachers to support the Beginning English classes. At every step of the way, we are there to support your child.

Company Information

At Oxford Elite Tutoring, we provide exceptional, personalised tuition delivered by fully qualified UK teachers, supporting students of all ages across top-tier international school curricula in Thailand. Our bespoke programmes are designed to strengthen academic performance, build confidence, and prepare students for success in high-level assessments. In addition to ongoing curriculum support, we offer specialised preparation for entrance tests to leading international schools in Thailand, as well as tailored exam support for families exploring UK school opportunities.

At the heart of OET are James Conduit and Sophie King. James is the former Director of EAL and Year 4 Team Leader at Shrewsbury International School Bangkok Riverside, and Sophie is a former Mathematics lead and Year 5 teacher also at Shrewsbury. Since leaving, they have supported hundreds of students across Thailand, preparing them for UK boarding schools, international school entrance exams, and ongoing academic success.

OET offers access to hand-picked, fully qualified UK teachers who have extensive experience teaching in top-tier international schools. Many previously taught alongside James and Sophie at Shrewsbury Riverside. Their expertise in adapting lessons for international learners ensures rapid progress, high engagement, and targeted support for areas needing development.

Our team works in close partnership with parents, students, and schools to ensure clear communication and consistent progress. Each family begins with a consultation to assess academic needs, learning goals, and school ambitions. From here, we create a personalised OET Learning Plan, match the student with the ideal tutor, and provide detailed feedback after every lesson. Throughout the journey, parents receive ongoing support and guidance to ensure their child is fully prepared for the next step.

Our Students: Thriving in Thailand's Top-Tier International Schools

The students we support come from some of the most prestigious international schools in Thailand. Families trust Oxford Elite Tutoring because we understand the demands, expectations, and academic standards of these world-class institutions. Our current learners study at schools such as Shrewsbury International School, Harrow International School Bangkok, Bangkok Patana School, ISB (International School Bangkok), NIST International School, and other leading institutions known for academic excellence, competitive admissions, and high-achieving student bodies.

Because our tutors have taught within these very schools, we know exactly how to help students succeed. Whether your child needs curriculum support, extension and challenge, exam preparation, or help filling specific learning gaps, we provide expert, targeted tutoring that leads to rapid progress. Our personalised, fully tailored approach ensures every lesson is purposeful, engaging, and aligned with school expectations.

For families preparing to apply to Thailand's leading international schools, we offer specialised entrance preparation. Our tutors expertly prepare students for admissions interviews, English and maths assessments, writing tasks, and academic challenges unique to each school.
